OUT OF THE GLOOM

Many a Gloomy Countenance in Norway

Now Lightens With Happiness

A bad back makes you gloomy. Can't be happy with continued back-ache.

The aches and pains of a bad back are frequently due to weak kidneys.

Doan's Pills are recommended for weak kidneys. Ask your neighbor.

So Norway citizens testify.

Mrs. Orville Palmer, Lower Main St., Norway, says: "I was suffering from disordered kidneys. My back was painful and it made me restless at night. I was dizzy and everything seemed to turn around in the room. My kidneys didn't act regularly. Doan's Pills had been used in the family with benefit so I decided to go to Clark's Drug Store and get a supply. After using two boxes, I was all right, so I gladly recommend Doan's."

MEETING AT BELL HILL

The annual Sunday Service held in the famous Old Bell Hill meeting house, Otisfield, took place last Sunday afternoon, July 27, at 2:30. Long before the hour of meeting the road was lined with autos and filled with people on their way to the services. Autos filled the open spaces about the church and along the roadside until considerably over 100 were parked.

The quaint old meeting house, whose organization dates back to 1794, was filled to overflowing with standing room only and not much of that except outside and many stood by the windows and doors to hear. In the vicinity of 600 were present at these services.

The order of services was as follows:
Prelude Largo.Handel
Invocation.Prayer
Anthem, "Hear, O My People."Stevens
Scripture Lesson.C. E. Hamlin, Oxford
Prayer and Response.Stevens
Announcements.Schaeffer
Offering, "Rejoice in the Lord."Hymn, "Love to Tell the Story."Fischer
Hymn, "Love to Tell the Story."Fischer
Benediction.Rev. Daniel I. Gross, D. D. Portland
Choir Response, "At Thine Altar."Hanson
Postlude, "March Pontificale."Postlude
Rev. D. I. Gross of Portland gave a fine sermon for the occasion, touching on the work of the church in years past, showing the responsibility of each individual of the present day by making for himself, his family and his friends, a greater advance in principles taught by Christ and thus making our nation the kind of a nation it is desirable it should be and in so doing live and follow the example set by Him through whom the greater abundance of life comes.

The music of the afternoon was excellent and was furnished by Mrs. Elizabeth Latham Otis, soprano; Mrs. Martha Hayes Hill, contralto; Stanley S. Gerish, tenor; Howard R. Stevens, baritone; and Fred Lincoln Hill, organist; all of Portland.

The church was simply, but effectively, decorated with yellow daisies, sunnys, ferns and sweet peas. Every fixture of the church was in its original, dating back to 1839, when the present building was erected—there were the straight-backed box pews with the doors, the old fashioned small paneled windows and shutters, the altar in its simplicity back-grounded by the U. S. flag, the carpet in the aisles was of the real old style in pink, green and gray in large design, the stoves were of the box type made in Norway years ago, the extra seats were benches which had seen service in their allotted places for years.

These meetings are held each summer and people from miles around avail themselves of this opportunity to attend. The collection taken was for the benefit of the church and added to its fund for repairs. The collection last Sunday afternoon amounted to \$181.00.

As one stands in the doorway of this beautiful old church, a more wonderful scene is hard to find. As the eye reaches the western mountains that are bathed in the thin blue haze of a late summer afternoon, and follows the hills and valleys to the lake and distant hills in the South, one sees nature in all its beauty over a vast territory.

It is possible that another summer several services will be held at the Old Bell Hill Meeting house instead of one service as now.

To celebrate the event Mr. and Mrs. Jackson invited their niece, Dorris Bradlee, Mr. and Mrs. Rast Jackson, her mother, Mrs. Hattie Beck, who is stopping with them, and Mr. and Mrs. Fred White of New York, another niece, who is the daughter of J. Cold ham, cold lamb, potato salad, crab meat salad, hot rolls and pickles were followed by coffee, cheese, and old fashioned squash pie, their favorite dessert as children. Judge Briggs Quicker Than a Weasel
"Judge" L. L. Briggs, the sage of Elm Hill, has a large weasel for his collection of side show freaks. The animal was run down by Lizzie Ford while the Judge was on his way to work, Wednesday morning. It is unnecessary to add that Judge Briggs was at the wheel, and should receive full honors for the remarkable skill of piloting Lizzie into a bullseye.

The weasel "got it in the neck" for the car made a direct hit between the head and body. After passing over the animal, the Judge returned to the scene and gloated over his marksmanship. The animal measured nineteen inches from tip to tip and of large size. When exhibited in the village, opinions varied concerning the species. Several old hunters made it a marten, sable weasel, wharf rat, freak skunk, etc.

Now the Judge is painfully methodical and accuracy is his middle name, so he speeded to his animal of Maine at Norway, where his animal was appraised and will be preserved for future generations. The taxidermist says pine weasel is the right name.

Judge Briggs blushing gives Lizzie all the credit for the exploit and successful climax. His anthem of praise runs something like this, "Blessed is Henry Ford who hath constructed a piece of machinery flexible and sensitive to the will of mortal mind, that even the secretive and nimble weasel may not escape its subtle movements."

Corn Doctor

This is a gent's furnishing store. We display no sign as a corn doctor. Although we will try and fit anyone with a pair of shoes that will bring relief.

We forwarded another pair of shoes to our customer by parcel post; this time we sent a pair of W. L. Douglass, Vici Kid, Goodyear welt, Low heel with a Wing Foot rubber top-lift and a rock oak sole with full tread, although not a cushion sole shoe.

Our instructions were to return the shoes if not what was wanted. Our customer refuses to return the shoes although they are not just what was wanted. A corn on the bottom of the foot is not a very good friend although a trial with the new Douglass shoe gave great relief, in fact, more comfort than has been enjoyed for several weeks. Therefore if you are troubled with tender feet come in and we will see what we can do with a pair of shoes for your relief.

Is Your Home Protected?

This matter of lightning rods should be a personal one with you. Is your home protected? If not, can you afford to take the chances of its destruction? You may have been spared up to this time, but give it a moment's thought and see whether it has not been through your good fortune rather than through your good management.

You have no assurance that lightning will continue to spare you. It has visited your neighbors. Your turn may come next. If it should visit your home, it means certain destruction of property. It may mean sudden death to you or some member of your family.

You cannot shift the responsibility. It is a matter for you to decide. Face the issue squarely, and ask yourself the question whether you are playing the part of the prudent man in neglecting to guard your home and dear ones from the lightning stroke which may come at any time.

You have the highest assurances that can be given that the Dodd System of lightning rods does give protection.

It is a reasonable system. The demonstrations given put its effectiveness beyond question.

The position that the insurance companies have taken in the matter should have great weight with you.

Their interests are to preserve property. They have no personal interests in Dodd & Struthers.

Your interests are the same. You want to preserve your property—and your life and the lives of your family.

The insurance companies are encouraging you to protect your property.

But they cannot force you to act. It is a question for you and a question of NOW.

After awhile may be too late.

Will you answer the question to your own best interests?

WRITES OF TRIP HOME

The following letter was written by William Lloyd Leavitt, the 9 year son of George Leavitt, and grandson of William C. Leavitt to Miss Nellie Brown, 141 Delphine St., Olney, Phila.

Dear Miss Brown: Uncle Bill took us down to Portland, it rained very hard on the way. Well, we got down to Portland, then we rode to Boston in a train. My father went ahead and got a taxi which took us to the wharf. Boston has such crooked streets. A porter came, took our suit cases and showed us our state room. We had a very clean state room with a place to wash in. On the boat we passed many forts, and passed the Standish Monument. We went into the canal, pretty soon we saw a crowd of people near the bridge watching the steamer go by. They waved their hats to the people on the boat, and the people on the boat waved to them.

We passed many other bridges. It was dark so we went to bed. The next morning I got up, the boat was in New York Harbor, about seven o'clock we came to Hellgate bridge and passed many others. I saw the Statue of Liberty in New York harbor. The boat came into the wharf and we got off.

We walked up a street in New York till we came to the station, then we got on the train to Philadelphia. On our way to Philadelphia the car in which we were in got a hot box, so we went into the smoker. I sat beside a man in the smoker and talked with him. We got off at Wayne Junction, took a trolley which took us down to 1st st., we got off, took a taxi to our house.

I hope you are feeling well how is aunt Mabel and grandpa, goody be. Sincerely yours, Wm. Lloyd Leavitt

RIGHT now the user of Royal Cords is profiting by a development in tire building that is anywhere from three to five years ahead of the industry as a whole—

Latex-treated cords.

The Latex Process, which gives so much added strength and wearing quality to Royal Cords, was invented and patented by the makers of United States Tires.

It will undoubtedly supersede all other methods.

You can get the benefit in Royal Cord High Pressure Tires of all sizes from 30 x 3 1/2 inches up, in Royal Cord Balloon Tires for 20 and 21 inch rims, and Royal Cord Balloon-Type Tires that fit your present wheels and rims.

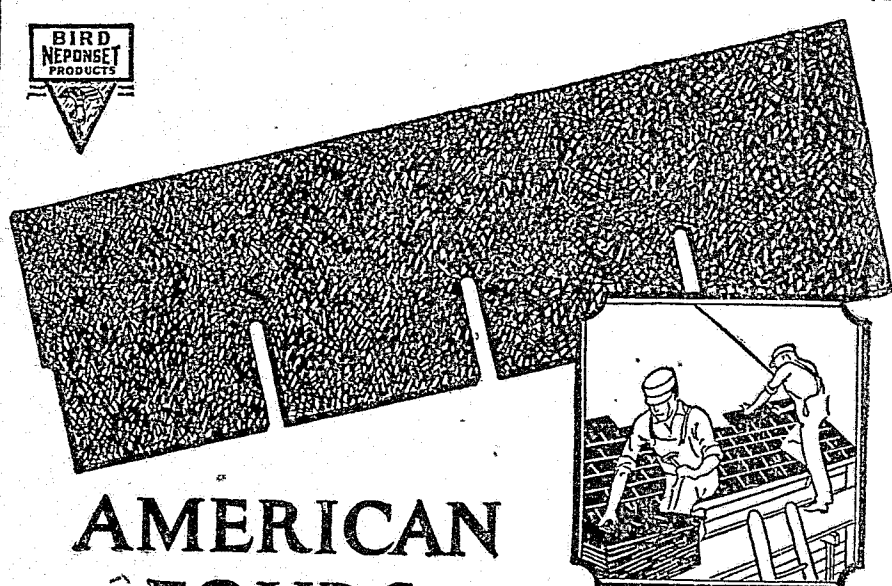

And you can get it now.

**Cuts Better
Lasts Longer**

You will appreciate the John Deere Mower the moment you see it in action. You will notice particularly its simplicity, its great cutting power and the ease with which it is handled. These advantages, combined with the extra years of service it gives, makes the John Deere a mighty profitable mower investment.

JOHN DEERE MOWER
The Mower with the Balanced Gears

The driving gears on the John Deere are balanced—one set offsets the thrust of the other set. This eliminates side wear and strain. This mower transmits maximum power to the high grade carefully-fitted knife—that's why the John Deere does a better job of cutting and pulls lighter.

Another feature—if after years of use, lag develops in the cutter bar, this can be taken out—the bar is aligned by a simple eccentric adjustment. The John Deere handles easily. The bar can be raised high with the foot lever to pass over ordinary obstructions. With the hand lever an extremely high lift can be secured quickly and easily. It's no job to keep the John Deere in good running order. All parts are easily replaced; adjustments easily made—its simplicity is a real feature.

Be sure to see this mower before you buy.
It's the best mower we have ever seen.

Walked Off With Doctor's Coat
Last week Dr. Raymond lost his overcoat containing his watch, automobile license, clinical thermometer, and other things and could think of no other way but that thieves had entered his house and taken it. It was gone several days when George Ridlon brought it back. Mr. Ridlon had been to the doctor's office for a call and when he started to go put on the coat and wore it home thinking that it was his own. After a day or two he noticed a strange coat hanging in his hall and asked whose it was, they concluding it belonged to a man who frequently came there to work. After a few days more he again asked whose coat it was still there.

A neighbor happened to call about that time and he mentioned the strange coat to him, who told him whose it was, because he knew that the doctor had lost one. Mr. Ridlon then examined more closely and found it was the doctor's by the contents and straightway returned it with apologies.
